the rime series | by tero lähteenmäki

RIME is a combination of modularity & simplified elegance. Enigmatic and inviting design makes it very approachable. Manufactured from high quality and massive 30 mm thick birch plywood and strengthened by carefully crafted stainless steel rods and spacers, making RIME not only extremely solid but also modern and versatile.

RIME was inspired by a Japanese bath stool and an idea of creating strong and durable furniture which still possesses the elegant expression. While the appearance and character of RIME is Scandinavian it has a built-in Japanese spirit.

Besides simple form language and the strength, RIME's true beauty and sophisticated essence comes out in the details which make the design. The wood grains, patterns and veneers do tell their own stories while the combination of high quality materials and the overall fine structure speak about the simplicity and elegance of the solution. Due to versatility and modular nature of RIME, it is suitable for both public and private use within interiors.

PRODUCT AND WARRANTY INFORMATION

The products are designed for use as a seating furniture. The products must be maintained consistent with the instructions issued by Cunga Design and must be used in accordance with the purposes for which they were designed. Each hand made item is unique and will showcase the personality of the craft and convey true luxury and elegance of ownership for many years to come. Warranty covers all manufacturer's structural defects for 25 years from the date of purchase not the date of delivery. A structural defect is defined as: a failure, material or mechanical, of the supporting structure of the furniture. For example: the legs on a stool or bench. This excludes the materials on the frame and finishing (lacquers, varnish, painting etc.) which are covered under a separate warranty. For material substances (varnishes, painting) we offer a 1 year warranty for material failure. This does not include "Wear

and Tear" or "Natural Characteristics" See Exclusions below. "Wear and Tear" and "Natural Characteristics" are not covered by our warranty under any circumstances. Some traits of "Wear and Tear" and "Natural Characteristics" are listed below. Fading (of seats, stains, woods, lacquers, paint etc.) caused by exposure to sunlight and other abrasions, are not covered under warranty. Staining of porous materials due to normal use is also not covered under the warranty. Scratching or indentation of materials such as lacquered or painted materials. Warping or movement of wood materials due to natural conditions such as humidity. Natural characteristics of natural materials such as wood are not covered by the warranty, and are not considered defects: Stretch marks, variation in grain / pattern, and knots are typical examples. Poor assembly, adjustment, setting or other actions taken by people who are not authorized by Cunga

Design. The use in public or professional settings, unless the model is appropriate for such use and this has been specified on the order. Any deteriorations due to improper use. Repairs, alterations or any other kind of modifications done by clients or by a third party without being previously and explicitly authorized by Cunga Design.

Specific manufacturing and material costs are not within our control from suppliers therefore prices in the price sheet are subject to change without notice. Cunga Design is not a manufacturer of raw materials such as steel, aluminum, wood, brass, precious metals, fasteners and special finishes. All clients will be notified of any changes as production commences. Any changes to any custom order for sizing, finish or other must be made within 7 days of initial placement of order.
